YOUNG MEN

Who have injured themselves by a certain practice indulged in when alone, a habit frequently learned from evil companions, or at school, the effects of which see nightly felt, even when asleep, and if not cured renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequences of deviating from the path of nature and indulging in a certain secret habit. Such persons MUST, before contemplating

DISEASE OF IMPRUDENCE.

When the misguided and imprudent votary of pleasure finds that he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame, or dread of discovery, deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the shin-bones and arms, blotches on the band, face and extremities, progressing with frightful rapidity, till at last the palast of the mouth or the bones of the most fail in, and the victim of this awful disease becomes a horrid object of commiseration, until death puts a period to his dreadful sufferings, by sending him to "that Undiscovered Country from whence no traveler returns."

It is a seclarsholy fact that thousands fall victims to this terrible disease, owing to the unskilfulness of ignorant pretenders, who, by the use of that Deadly Poison, Mercury, run the constitution and make the residue of life miserable. DISEASE OF IMPRUDENCE.

ORGANIC WEAKNESS

Immediately cured and Full Vigor Restored.

This Distressing Affection—which renders Life and Marriage impossible—is the pensity paid by the victims of improper indulgence. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits than by the pradent? Besides being deprived of the pleasure of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the Physical and Mantal-Functions Weakened, Loss of Procreative Power, Nervous Irritability, Dyspepsis, Painistation of the Heart, Indigestion, Constitutional Debility, a wasting of the Frame, Cough, Consumption, Decay and Death.
